

Information on the Coronavirus (SARS-CoV-2 / COVID-19)

Dear Sir or Madam,

due to the COVID-19 pandemic, which is currently spreading worldwide, a transparent and continuous communication with our customers is very important to us.

At the moment, every day brings new regulations and changes. To remain deliverable in the future and out of responsibility towards our employees and their families, we have adapted our processes to the current situation.

In addition to the usual measures such as avoiding on-site meetings, events and business trips, we have also trained all employees in terms of general hygiene rules.

In addition, the following specific measures were implemented for WEPTeCH:

- Contactless delivery / takeover of mail and goods
- Access to company premises only for WEPTeCH employees
- Adapted shift models (contactless shift handover)
- No mixing of separate departments
- Adapted cleaning schedule
- Regulated usage plan for the social area
- Increased use of home offices

We have prepared ourselves in the past days and weeks and will therefore be able to serve all current orders. However, the situation is currently changing very quickly. We are monitoring the developments very closely and will keep you up to date.

More critical to us are the increasing lead times in almost all areas. News of manufacturers temporarily closing their factories are reaching us frequently.

We therefore ask you to place your orders with the appropriate foresight. Early orders can be coordinated with our suppliers better and we will rather be able to meet the delivery dates.

Of course, your WEPTeCH contact person will be happy to answer your questions via the known channels such as telephone, email or video call.

We wish you all the best and will be there for you in these challenging times.
Stay healthy!

Your WEPTeCH team
