

## Information on the Coronavirus (SARS-CoV-2 / COVID-19)

Dear Sir or Madam,

We examine the current development on the coronavirus (Covid-19) from both a human and business perspective with attention and prevention. A daily reassessment of the situation is necessary and long-term valid statements are difficult. However, we would like to inform our customers and partners about maintaining the supply chain at WEPTeCH elektronik GmbH. We apologize for any restrictions.

In this context, we would also like to thank our customers and sub-suppliers for the good cooperation in this difficult time. In order not to endanger the safety of our employees or our ability to deliver and manufacture, we have expanded our current measures:

- It is compulsory to wear a mask in the whole house, except at your own workplace
- Minimum distance of 1,5 meters to other colleagues
- Adapted shift models
- Adapted cleaning schedule
- Restrictions on the use of social and meeting rooms
- Increased use of home offices
- Regular ventilation and frequent hand-washing
- Regular disinfection of equipment and tools
- **Customer- and supplier appointments on site only in compliance with the 3G rule (please present proof at reception!)**

We will continue to closely monitor developments relating to the coronavirus and their effects and will inform you immediately if our ability to deliver or manufacture is affected in the future.

Your respective contact persons are of course available to answer any questions you may have via the usual communication channels such as telephone, e-mail or video telephony.

Your WEPTeCH-Team
